Bijou Cabochon Glass Wall Light

Installation & care guide · Aussie Lights

14 cm wide x 13 cm high coloured glass shade with black cabochons on a gold metal bracket. G9 fitting: use a G9 LED globe of max 5 W (warm white recommended). Wall mount.

Before you start

- This is a hardwired wall light. In Australia it must be installed by a licensed electrician.
- Turn off the power at the switchboard before installation, cleaning or maintenance.
- For indoor, dry areas only. Handle the glass shade with care.

Installation steps

1. **Fix the bracket:** screw the mounting bracket to the wall over the electrical point, with the bracket centred where you want the light.
2. **Connect the wires:** your electrician connects the light to the mains wiring with the connector block (active, neutral and earth where fitted).
3. **Mount the light:** fix the gold metal bracket to the mounting plate and tighten the screws so it sits flush against the wall.
4. **Fit the globe:** push a G9 LED globe into the socket, then fit the glass shade carefully onto its holder.
5. **Test:** restore power and switch on.

Care

- Switch off and let the light cool, then wipe the glass and metal with a soft dry cloth.
- Do not use solvents or abrasive cleaners on the glass or the gold finish.
- Contact us if you have any issue with the light.
