Bodhi Wooden Bead Linear LED Pendant

Installation & care guide · Aussie Lights

Before you start

- This is a hardwired ceiling light. In Australia it must be installed by a licensed electrician.
- Turn off the power at the switchboard before installation, cleaning or maintenance.
- Check that the ceiling and fixing point can safely hold the weight of the light. Use the screws and wall plugs suited to your ceiling.
- Do not install on an unfinished or wet ceiling. Indoor use only.
- Handle the wooden beads with clean, dry hands and keep them away from water and heat sources.

In the box

- Light body: metal bar with graduated wooden beads and integrated LED
- Ceiling canopy with mounting plate, screws and wall plugs
- 2 adjustable suspension cables and power cord
- Remote control for dimming

Installation steps

1 Unpack every part and check nothing is missing or damaged before the electrician arrives.

2 Fix the mounting plate to the ceiling with the supplied screws, centred over the electrical outlet.

3. Your electrician connects the power cord to the mains wiring (active, neutral and earth) inside the canopy.
4. Attach the canopy over the mounting plate and tighten the fixing nuts.
5. Hang the chandelier body on the 2 suspension cables.
6. Adjust the height: loosen the cable grip, slide the cable to the length you want, then let the grip lock. Make sure the bead line hangs level.
7. Cut or coil the excess cable neatly inside the canopy, restore power and test the light.

Recommended heights

- Above a dining table or kitchen island: beads about 75 to 85 cm above the table top.
- In a living room, bedroom or hallway: leave at least 210 cm between the floor and the beads.

Care

- Switch off and let the light cool, then dust with a soft dry cloth.
- Do not use water, polish or solvents on the wooden beads. Natural wood grain and tone vary slightly from piece to piece.
- Use the remote control to dim the light. The LED is integrated and is not a replaceable globe. Contact us if you have any issue with the light.
