Marlow Black Dome Pendant Light

Installation Guide

In the box

1 x metal dome pendant with lampholder (Pack of 2: two) · ceiling canopy with bracket (one per pendant) · black suspension cord · fixing hardware

You will need

Drill, screwdriver, pencil and stepladder. One ES (E27) globe per pendant, sold separately (warm white LED, 2700 to 3000K, recommended). Hang the shade about 75 cm above a table or bench (70 to 80 cm over an island).

Important safety information

- This light must be installed by a licensed electrician, in line with AS/NZS 3000 (Wiring Rules) and local regulations.
- Turn the power off at the switchboard before installing, cleaning or servicing the light.
- Use screws and wall plugs suited to your wall (plasterboard, timber or masonry).
- Pack of 2: each pendant needs its own ceiling point. Repeat the steps for each.
- Do not exceed the maximum wattage shown on the lampholder.

Step by step

1. **Fix the mounting bracket**
   Separate the canopy from its bracket. Mark the holes and fix the bracket firmly to the ceiling, into a joist or with suitable plasterboard anchors.
2. **Set the drop**
   Adjust the cord to the hanging height you want (overall drop up to 160 cm, from ceiling to the bottom of the dome) and lock it in place. Your electrician can trim any extra cord.
3. **Connect the wiring**
   With the power OFF, connect the pendant cord to the supply: Active to L, Neutral to N, and Earth to the earth terminal if one is fitted.
4. **Fit the canopy**
   Push the canopy up over the bracket, tuck the wires neatly inside and secure it so it sits flush with the ceiling.
5. **Fit the globe**
   Screw an ES (E27) globe into the lampholder inside the dome, gently and without force.
6. **Test**
   Restore the power at the switchboard and switch on the light.

Care and cleaning

Turn the light off and let it cool. Dust the shade inside and out with a soft, dry cloth. Do not use water, solvents or abrasive cleaners.
