Halden Linear LED Outdoor Wall Light

Installation Guide

In the box

Linear LED wall light (60, 100, 150 or 200 cm) with integrated 3-colour LED · mounting brackets · wall plugs and screws

You will need

Drill, screwdriver, spirit level, pencil and a second person for the 150 and 200 cm lengths. Mount vertically beside a door or gate, or horizontally above it.

Important safety information

- This light must be installed by a licensed electrician, in line with AS/NZS 3000 (Wiring Rules) and local regulations.
- Turn the power off at the switchboard before installing, cleaning or servicing the light.
- Use screws and wall plugs suited to your wall (plasterboard, timber or masonry).
- IP65 rated by the maker for exterior walls. Seal the cable entry so water cannot run into the wall box.
- Hardwired fitting: must be installed by a licensed electrician.

Step by step

1. **Turn off the power**
   Switch off the circuit at the switchboard and check the wall point is dead before you start.
2. **Mark and fix the brackets**
   Hold the light against the wall, check it is straight with a spirit level and mark the bracket holes. Drill, fit the wall plugs and screw the brackets on.
3. **Connect the wiring**
   Active to L, Neutral to N and Earth to the earth terminal if present. Use a weatherproof connector and check every connection is tight and insulated.
4. **Mount the light**
   Clip or screw the light onto the brackets as supplied and check it sits flush and level against the wall.
5. **Test and choose the colour**
   Restore the power and switch on. Select warm, neutral or cool white as shown in the maker's leaflet supplied with the light.

Care and cleaning

Switch off before cleaning. Wipe with a soft damp cloth and mild soapy water, then dry. Never use a pressure washer or solvents on the light.

Need help?

Email hello@aussielights.com with your order number and a photo. Your light is covered by our 2-year warranty and 30-day returns.
