Iris Layered Glass Petal Chandelier

Installation & care guide · Aussie Lights

Before you start

- This is a hardwired ceiling light. In Australia it must be installed by a licensed electrician.
- Turn off the power at the switchboard before installation, cleaning or maintenance.
- Check that the ceiling and fixing point can safely hold the weight of the light. Use the screws and wall plugs suited to your ceiling.
- Do not install on an unfinished or wet ceiling. Indoor use only.
- The glass petals are fragile: unpack them on a soft surface and wear gloves to keep the brass and glass clean.

In the box

- Brass frame with central rod and G9 lampholders
- Textured glass petals (packed separately)
- G9 LED globes (8 for Ø50 cm, 12 for Ø60 cm)
- Ceiling canopy with mounting plate, screws and wall plugs

Installation steps

1. Unpack every part on a soft surface and check that nothing is missing or damaged before the electrician arrives.
2. Choose the rod length you want (adjustable up to 50 cm) and assemble the rod to the frame.

3. Fix the mounting plate to the ceiling with the supplied screws, centred over the electrical outlet.
4. Your electrician connects the wiring to the mains (active, neutral and earth) inside the canopy.
5. Attach the canopy over the mounting plate and tighten the fixing nuts.
6. Push the G9 LED globes into the lampholders.
7. Hang the glass petals on the frame layer by layer, from the top down, following the diagram supplied in the box.
8. Restore power and test the light.

Recommended heights

- Above a dining table or kitchen island: lowest petal about 75 to 85 cm above the table top.
- In a living room, bedroom or hallway: leave at least 210 cm between the floor and the lowest petal.

Care

- Switch off and let the light cool, then dust with a soft dry cloth.
- Glass petals can be lifted off and wiped with a soft damp cloth, then dried. Do not use solvents or abrasive cleaners on the brass finish.
- Replace a G9 LED globe with the same type (G9 LED). Contact us if you have any issue with the light.
