# Ivy Glass Bowl LED Pendant Light

Installation Guide

### In the box

1 x glass bowl shade · 1 x metal frame with integrated LED · 1 x ceiling canopy with bracket · cable · fixings

### You will need

Drill, screwdriver, pencil and stepladder. No globe needed: the LED is built in. Hang the shade about 75 cm above a table or bench (70 to 80 cm over an island).

### Important safety information

- This light must be installed by a licensed electrician, in line with AS/NZS 3000 (Wiring Rules) and local regulations.
- Turn the power off at the switchboard before installing, cleaning or servicing the light.
- Use screws and wall plugs suited to your wall (plasterboard, timber or masonry).
- Glass is fragile: handle the bowl with care.
- See the box instructions to choose warm, neutral or cool white.

## Step by step

1. **Fix the mounting bracket**
   Separate the canopy from its bracket. Mark the holes and fix the bracket firmly to the ceiling, into a joist or with suitable plasterboard anchors.
2. **Set the drop**
   Adjust the cable at the canopy to the drop you want (up to 150 cm) and lock it in place. Your electrician can trim any extra cable.
3. **Connect the wiring**
   With the power OFF, connect the cord to the supply: Active to L, Neutral to N, and Earth to the earth terminal if one is fitted.
4. **Fit the canopy**
   Push the canopy up over the bracket, tuck the wires neatly inside and secure it until it sits flush with the ceiling.
5. **Fit the glass**
   Fit the glass bowl to the frame as shown, if packed separately. Tighten by hand.
6. **Test**
   Restore the power at the switchboard and switch on the light.

### Care and cleaning

Turn the light off and let it cool. Wipe the glass with a soft, dry cloth. Never wet the LED or the cable.

### Need help?

Email hello@aussielights.com with your order number and a photo. Your light is covered by our 2-year warranty and 30-day returns.
