Lola Glossy Dome LED Pendant Light

Installation Guide

In the box

1 x glossy dome pendant with integrated LED and diffuser · 1 x ceiling canopy with mounting bracket · suspension cable · fixing hardware

You will need

Drill, screwdriver, pencil and stepladder. No globe needed: the warm white LED is built in. A helper is useful for the larger sizes. Hang the shade about 75 cm above a table or bench (70 to 80 cm over an island).

Important safety information

- This light must be installed by a licensed electrician, in line with AS/NZS 3000 (Wiring Rules) and local regulations.
- Turn the power off at the switchboard before installing, cleaning or servicing the light.
- Use screws and wall plugs suited to your wall (plasterboard, timber or masonry).
- Gloss finish: handle the dome with clean, soft gloves or a cloth to avoid fingerprints and scratches.

Step by step

1. **Fix the mounting bracket**
   Separate the canopy from its bracket. Mark the holes and fix the bracket firmly to the ceiling, into a joist or with suitable plasterboard anchors.
2. **Set the drop**
   Adjust the suspension cable to the drop you want and lock it in place. Your electrician can trim any extra cable.
3. **Connect the wiring**
   With the power OFF, connect the pendant cable to the supply: Active to L, Neutral to N, and Earth to the earth terminal if one is fitted.
4. **Fit the canopy**
   Push the canopy up over the bracket, tuck the wires neatly inside and secure it so it sits flush with the ceiling.
5. **Level the dome**
   Check the dome hangs level and wipe off any fingerprints.
6. **Test**
   Restore the power at the switchboard and switch on the light.

Care and cleaning

Turn the light off. Wipe the gloss dome with a soft microfibre cloth and the diffuser with a dry cloth. Do not use solvents or abrasive cleaners.
