Teo Travertine Cylinder Pendant Light

Installation & care guide · Aussie Lights

Shade: Ø 6.5 cm x 18.5 cm high. 1 Light: ceiling plate Ø 10 cm, cable up to 170 cm. 2 Lights: round ceiling plate Ø 12 cm, cables up to 170 cm. 3 Lights: wood ceiling bar 60 cm, cables up to 150 cm. Fitting: 1 x ES (E27) per shade, globe sold separately; choose a compact LED globe that fits inside the Ø 6.5 cm shade.

Before you start

- This is a hardwired pendant light. In Australia it must be installed by a licensed electrician.
- Turn off the power at the switchboard before installation, cleaning or maintenance.
- Indoor use, in dry areas.
- The shades are natural travertine: unpack it on a soft surface and handle with care. Every stone has its own pores and tone.

In the box

- Travertine cylinder shade(s) with walnut wood cap
- Ceiling canopy, cable and mounting hardware

Installation steps

1. Check that nothing is missing or damaged before the electrician arrives.
2. Decide the hanging height: about 75 cm above a dining table or kitchen bench, or at eye level beside a bed. Your electrician shortens the cable to suit.
3. Your electrician fixes the canopy plate to the ceiling over the electrical point.
4. Your electrician connects the light to the mains wiring (active, neutral and earth).

5. Fit the canopy cover and check the pendant hangs straight.
6. Fit a compact ES (E27) LED globe in each shade (warm white 2700-3000K suggested), restore power and test.

Care

- Switch off and let the light cool, then dust with a soft dry cloth.
- Do not use water, solvents or abrasive cleaners on the stone or wood.
- Contact us if you have any issue with the light.
