Nimbus Cloud Wall Light

Installation Guide

In the box

1 x Nimbus cloud wall light (Bear or Bunny) with LED light source · wall mounting plate · screws and wall plugs

You will need

Drill, screwdriver, pencil and spirit level. No globe to buy: the LED light source is included. In a child's room, fit it out of reach, for example above the bedhead or about 150 cm or more from the floor.

Important safety information

- This light must be installed by a licensed electrician, in line with AS/NZS 3000 (Wiring Rules) and local regulations.
- Turn the power off at the switchboard before installing, cleaning or servicing the light.
- Use screws and wall plugs suited to your wall (plasterboard, timber or masonry).
- For indoor, dry areas only. This is a decorative light, not a toy: keep it out of children's reach.

Step by step

1. **Remove the mounting plate**
   Separate the metal mounting plate from the back of the light (undo the fixing screw if fitted).
2. **Fix the plate**
   Hold the plate over the wall outlet, check it is level, mark the holes, drill and screw it firmly to the wall with the plugs supplied.
3. **Connect the wiring**
   With the power OFF, connect Active to L, Neutral to N and Earth to the earth terminal if one is fitted. Tuck the wires neatly into the wall.
4. **Mount the light**
   Fit the light onto the mounting plate and secure it so it sits straight and firmly against the wall.
5. **Test**
   Restore the power at the switchboard and switch on the light.

Care and cleaning

Turn the light off and let it cool. Dust the cloud and the figure with a soft, dry cloth. Do not use water, solvents or abrasive cleaners.

Need help?

Email hello@aussielights.com with your order number and a photo. Your light is covered by our 2-year warranty and 30-day returns.
