Morel Wavy Mushroom Floor Lamp

Installation Guide

In the box

1 x floor lamp with lacquered dome shade, wavy stem and weighted base (stem parts may be packed separately) · power cable with foot switch and Australian plug

You will need

A power point within reach. One ES (E27) globe, sold separately (warm white LED, 2700 to 3000K, recommended).

Important safety information

- Indoor use only. Keep the lamp dry and away from water, heaters and open flames.
- Use a power point in good condition, and unplug the lamp before cleaning or moving it, or changing the globe.
- Plug-in lamp: no electrician needed.

Step by step

1. **Unpack and assemble**
   Remove all packaging. If the stem or shade is packed separately, join the parts securely so the lamp stands straight.
2. **Fit the globe**
   Reach under the dome and screw an ES (E27) globe into the lampholder, gently and without force.
3. **Place the lamp**
   Stand the lamp on a level floor and keep the power cable clear of walkways.
4. **Plug in**
   Plug the Australian plug into a power point and switch the power point on.
5. **Switch on**
   Press the foot switch on the cable to turn the lamp on and off.

Care and cleaning

Unplug the lamp and let it cool. Wipe the gloss lacquer with a soft, dry or slightly damp cloth. Do not use solvents or abrasive cleaners.
