Selene Crystal Glass Table Lamp

Installation Guide

In the box

1 x crystal glass lamp with base and integrated LED · USB cable

You will need

A USB port or USB phone charger (a wall adaptor is not included). No globe needed: the LED is built in.

Important safety information

- Indoor use only. Keep the lamp dry.
- Use a USB port or USB charger in good condition, and unplug the lamp before cleaning or moving it.
- Plug-in lamp: no electrician needed.
- Mood light: it casts a glowing arc on the wall and is not designed as a reading light.

Step by step

1. **Unpack**
   Remove all packaging and check the crystal and base. Handle the glass with clean, dry hands.
2. **Place the lamp**
   Stand it on a stable, flat surface 10 to 30 cm from a wall: closer gives a sharper arc, further a longer, softer one.
3. **Connect the power**
   Plug the USB cable into the lamp and into a USB port or a USB phone charger in a power point.
4. **Switch on**
   Use the lamp's switch to turn it on and change between warm, neutral and cool white.
5. **Adjust**
   Move or turn the lamp slightly until the light falls on the wall the way you like.

Care and cleaning

Unplug the lamp. Wipe the crystal with a soft, lint-free or microfibre cloth to remove fingerprints. Do not use water or cleaning products on the base.
