Nyla Marble-Look Drum Pendant Light

Installation & care guide · Aussie Lights

Before you start

- This is a hardwired pendant light. In Australia it must be installed by a licensed electrician.
- Turn off the power at the switchboard before installation, cleaning or maintenance.
- Check that the ceiling can safely hold the light, and use fixings suited to your ceiling.
- Indoor use in dry areas only.
- Unpack the shade on a soft surface and handle it with care.

In the box

- Pendant with marble-look drum shade, black metal cap and adjustable cable
- Ceiling base (canopy), mounting bracket and screws

Installation steps

1. Check that nothing is missing or damaged before the electrician arrives.
2. Decide the hanging height: 50 to 70 cm above a bedside table, 75 to 90 cm above a kitchen bench or dining table, and at least 210 cm clear under the shade in a walkway.
3. Your electrician fixes the mounting bracket to the ceiling over the electrical point.
4. Your electrician connects the pendant to the mains wiring (active, neutral and earth).
5. Set the cable to the chosen height (up to 150 cm), fit the ceiling base over the bracket, then restore power and test the light.

Care

- Switch off and let the light cool, then dust with a soft dry cloth.
- Do not use water, solvents or abrasive cleaners.
- Contact us if you have any issue with the light.
