Soren Oval LED Pendant Light

Installation Guide

In the box

1 x oval frame with integrated LED · 1 x ceiling canopy with mounting bracket · suspension cord · screws and wall plugs (Pack of 2: two complete pendants)

You will need

Drill, screwdriver, pencil and stepladder. No globe needed: the LED is built in. Hang about 75 cm above a table or bench (70 to 80 cm over an island), or at a comfortable height beside a bed.

Important safety information

- This light must be installed by a licensed electrician, in line with AS/NZS 3000 (Wiring Rules) and local regulations.
- Turn the power off at the switchboard before installing, cleaning or servicing the light.
- Use screws and wall plugs suited to your wall (plasterboard, timber or masonry).
- Pack of 2: each pendant has its own canopy and cord and is installed separately.
- Indoor use only.

Step by step

1. **Fix the mounting bracket**
   Separate the canopy from its bracket. Mark the holes and fix the bracket firmly to the ceiling, into a joist or with suitable plasterboard anchors.
2. **Set the drop**
   Loosen the cord grip at the canopy, set the drop you want and tighten the grip. Your electrician can trim any extra cord.
3. **Connect the wiring**
   With the power OFF, connect the cord to the supply: Active to L, Neutral to N, and Earth to the earth terminal if one is fitted.
4. **Fit the canopy**
   Push the canopy up over the bracket, tuck the wires neatly inside and tighten the screws until it sits flush with the ceiling.
5. **Straighten the frame**
   Gently turn the oval frame to face the way you want and check it hangs straight.
6. **Test**
   Restore the power at the switchboard and switch on the light.

Care and cleaning

Turn the light off. Dust the frame with a soft, dry cloth. Do not use water, solvents or abrasive cleaners.
