Suna Wabi-Sabi Textured Pendant Light

Installation Guide

In the box

1 x textured shade with lampholder (Set of 3: one of each shape) · ceiling canopy with bracket · adjustable cable · terminal block · fixing hardware

You will need

Drill, screwdriver, pencil and stepladder. One ES (E27) globe per pendant, sold separately (warm white LED, 2700 to 3000K, recommended). Hang the shade about 75 cm above a table or bench (70 to 80 cm over an island).

Important safety information

- This light must be installed by a licensed electrician, in line with AS/NZS 3000 (Wiring Rules) and local regulations.
- Turn the power off at the switchboard before installing, cleaning or servicing the light.
- Use screws and wall plugs suited to your wall (plasterboard, timber or masonry).
- Set of 3: repeat these steps for each pendant.
- Dimming needs a dimmable globe and a compatible wall dimmer.

Step by step

1. **Fix the mounting bracket**
   Undo the two side screws to separate the canopy from its plate. Mark the holes and screw the plate firmly to the ceiling, into a joist or with suitable anchors.
2. **Set the drop**
   Adjust the cable (up to 150 cm) to the drop you want and lock it. Your electrician can trim any extra.
3. **Connect the wiring**
   With the power OFF, connect the pendant cable through the terminal block: Active to L, Neutral to N, and Earth to the earth terminal if one is fitted.
4. **Fit the canopy**
   Tuck the wires inside, push the canopy up over the plate and refit the two side screws until it sits flush with the ceiling.
5. **Fit the globe**
   Reach up inside the shade and screw an ES (E27) globe into the lampholder, gently and without force.
6. **Test**
   Restore the power at the switchboard and switch on the light.

Care and cleaning

Turn the light off and let it cool. Dust the textured surface with a soft, dry brush or cloth. Do not use water or cleaning products.
