Ziva Linear LED Chandelier

Installation & care guide · Aussie Lights

Metal frame, 4 orientable half-disc diffusers · integrated LED 3000K
Hardwired ceiling light · dimensions in cm

Before you start

- This is a hardwired ceiling light. In Australia it must be installed by a licensed electrician.
- Turn off the power at the switchboard before installation, cleaning or maintenance.
- Check that the ceiling and fixing point can safely hold the weight of the light. Use the screws and wall plugs suited to your ceiling.
- Do not install on an unfinished or wet ceiling. Indoor use only.
- Wear gloves when handling the metal bars and half-disc diffusers to keep the finish clean.

In the box

- Chandelier body: 3 metal bars with 4 half-disc LED diffusers
- Ceiling canopy with mounting plate, screws and wall plugs
- 2 suspension cables (adjustable, up to 150 cm) and power cord

Installation steps

1. Unpack every part and check nothing is missing or damaged before the electrician arrives.
2. Fix the mounting plate to the ceiling with the supplied screws, centred over the electrical outlet.
3. Your electrician connects the power cord to the mains wiring (active, neutral and earth) inside the canopy.
4. Attach the canopy over the mounting plate and tighten the fixing nuts.

5. Hang the chandelier body on the 2 suspension cables.
6. Adjust the height: loosen the cable grip, slide the cable to the length you want, then let the grip lock. Make sure the bars hang level.
7. Cut or coil the excess cable neatly inside the canopy, restore power and test the light.

Recommended heights

- Above a dining table or kitchen island: lowest disc about 75 to 85 cm above the table top.
- In a living room, bedroom or hallway: leave at least 210 cm between the floor and the lowest disc.

Care

- Switch off and let the light cool, then dust with a soft dry cloth.
- Do not use water, acidic or alkaline cleaners, or solvents on the metal finish. Each half-disc can be turned by hand to direct the light.
- The LED is integrated and is not a replaceable globe. Contact us if you have any issue with the light.
